

1. Clean and Prep Disposable Tubes. Using clean tubes will permit storing of your gelatin shots for several days before your party.

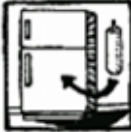

2. Make Gelatin Cocktails. Combine mix with 2 ½ cups boiling water and 1 ½ cups vodka until completely dissolved. Entire mix fills all three disposable tubes.

3. Fill and Seal Tubes. Fill the tubes until ½" to 1 inch below the opening.

4. Insert bottom. Insert a bottom into the opening and gently press on one side to release any remaining air.

5. Cool in a refrigerator for approximately 8 hours.

6. Open tube nozzle using clip on caulk gun. Tip head back, open mouth wide and shoot gelatin into mouth. Clean nozzle between users. Consume responsibly. Approximately 12 shots per tube
